INTRODUCTION

Choosing a child care provider for your child is one of the most important decisions families make. The first five years are a critical time of growth and development, and families are children's first and most important teachers. High quality early childhood care and education gives children the experiences they need to enter school ready to succeed while providing parents the opportunity to work and support their families. This guide provides information, resources, and guidance to help you make the best decision when choosing high quality child care and education programs that meet the needs of your family.

STEPS TO CHOOSING QUALITY CHILD CARE

Start early! Finding the best child care for your family takes time. There are many types of child care programs to meet the diverse needs of families such as Center, Family, Group, After School, Preschool, and Family/Friend/Neighbor Care (FFN).

When considering your child care options, look for child care programs with the following qualifications on Pages 4-5:

Best Beginning STARS to Quality Program:

A voluntary quality rating improvement system that aligns quality indicators with support and incentives for early childhood programs and professionals. This quality improvement program promotes strong early childhood education in Montana.

CHILD CARE CHECKLIST

ASK THE DIRECTOR & STAFF

- What is the program's mission and philosophy?
- Is the program licensed or registered?
- May I have a copy of your policies?
- Do the policies include schedules and fees?
- What is your sick child policy?
- Do you offer any financial assistance?
- Do you have an orientation for new families?
- What are your procedures for emergencies?
- Do you practice fire drills and evacuations?
- Are all staff trained in CPR and First Aid?
- Do you Background Check ALL staff?
- What is your system for knowing where my child is at all times?
- Do you participate in the USDA sponsored Child and Adult Care Food Program (CACFP)?
- How does the program support children's education and learning?
- Are children able to choose what activities they want to do and who to play with?
- Do the children help plan activities?
- How do you accommodate children with special needs?

WARNING SIGNS

- All parent visits must be planned in advance
- There are few planned activities or guidance
- The child care is not licensed or registered
- There are too many children for adequate care and supervision
- Caregivers are physically rough, abusive or yell at the children
- There are licensing deficiencies for Health and Safety requirements
